**PHYSICAL DEMANDS FOR ESSENTIAL FUNCTIONS  
METER TECHNICIAN APPRENTICE 1**

<b>ALERTNESS &amp; CONCENTRATION</b>	Maintains full alertness and concentration at all times, sometimes in inclement climatic conditions, at night, and during emergency storm shifts.
<b>VISION</b>	<p><u>Far Visual Acuity</u> - As necessary to drive and operate equipment and assess the status of fixtures on top of a 45 ft. pole to ground. Should be able to distinguish potential hazards at meter installations and on poles.</p> <p><u>Near Visual Acuity</u> - Necessary for filling out logs, written reports, operating controls on equipment, identifying materials, and nameplates on equipment.</p> <p><u>Peripheral Vision</u> - As necessary for driving and operating equipment safely.</p> <p><u>Color Vision</u> - Judges red, green, and yellow traffic lights adequately to drive, and colored metering cable.</p> <p><u>Depth Perception</u> - Needed to judge distance when driving, operating equipment around high voltage lines, and equipment.</p> <p><u>Night Vision</u> - Same as above when working at night and in poor light.</p>
<b>HEARING</b>	Hears spoken conversation well while working on ground and communicating with other employees on top of 45' poles, despite heavy background noise from equipment, traffic, rain, and wind. Hears adequately to operate 2-way radio. Visual signals may not always be appropriate.
<b>SPEECH</b>	Speaks loudly and clearly enough to be understood from ground to top of 45' pole or when 100 ft. away from co-worker, despite heavy background noise and when visual signals cannot be used. Speaks clearly when communicating by 2-way radio.
<b>SITTING / STANDING</b>	30-90% of working hours spent sitting when inputting reports into computer, calibrating meters, repairing meters, or while driving to and from work sites. May sit 7½ hours in eight (8) hour day on occasions. 70-100% of working hours spent standing. Surface may be uneven ground or metal platform on equipment.
<b>WORKER MOBILITY / WALKING</b>	Can change positions frequently when on ground. When operating equipment, somewhat limited. Walking: Common distance is ¼ to ½ mile. On uneven ground, occasionally, one to two miles. May walk in overshoes as required in substations and in stormy conditions. Total walking in 8-hour day is 6-7 hours.
<b>LIFTING / CARRYING</b>	Lifts up to 125 lbs. Equipment would normally be used to carry items weighing 75 lbs. plus. 0-50 lbs. continuous. Up to 50 lbs. would be carried approximately 100 ft. Must be able to move equipment around with pallet mule.
<b>PUSHING / PULLING</b>	31-50% of working hours when working with materials.
<b>BENDING</b>	31-80% of working hours. May bend or kneel to work on transformers and meter test sets. Bends when loading materials on/off trucks and when picking up materials to work on equipment, etc.
<b>REACHING / HANDLING</b>	Regular use of hands and wrists when using small tools such as wrenches, drill, etc. Grips hand tools for several minutes at a time. Writes reports and enters in log books.
<b>TWISTING / CLIMBING / CRAWLING</b>	Twisting can be avoided somewhat by taking step in direction of the work. Climbs on and off trucks and equipment. First step is approximately 20-24 inches from ground. Occasionally crawls under equipment.
<b>ENVIRONMENTAL FACTORS</b>	Performs a variety of strenuous tasks outside, with temperatures varying from 32 degrees or below to 90 degrees or above, sometimes in rainy, stormy conditions, rarely in snowy or icy conditions. Works around high voltage occasionally with the use of hand tools. Frequently exposed to noise from construction equipment, heavy traffic and air compressors. Exposed to pollen, bee/wasp stings, animal bites, and poison oak.
<b>MACHINES / TOOLS/ EQUIPMENT</b>	Hydraulic, battery, air, and AC powered tools, hand tools, air compressors, ladders, multimeter, low resistance ohmmeter, meter test set, Bucket Trucks, Forklifts, insulated extendo stick, and other hand tools commonly used to work as a technician.
<b>SAFETY EQUIPMENT / SAFETY LOSS CONTROL PROCEDURES</b>	Hard hat, 30KV and 5KV rubber gloves, 30 KV rubber sleeves, overshoes, safety glasses, safety goggles, face shield, work gloves, FR clothing to include Balaclava. Mayday, CPR, first aid, defensive driving, Bucket truck rescue, and forklift certifications are required.
<b>DRUG TEST / PHYSICAL EXAM</b>	Drug test required for pre-employment and random thereafter. Employment entrance physical exam required.

Requirements are subject to possible modification to reasonably accommodate individuals with disabilities provided it does not pose a direct threat or significant risk to the health and safety of themselves or other employees.
