A MESSAGE TO MEMBERS

electricity—we strive to empower and improve lives.

At Flint Energies, "Be the Difference" isn't just a theme—it's a calling. Since our founding in 1937, we've grown alongside the communities we serve, bringing positive change to every corner of our 17-county footprint. From our beginnings with just 10 miles of line to now serving nearly 100,000

In 2024, we continued to grow. Nowhere is that more evident than in Houston County, one of Georgia's fastest-growing areas, where new neighborhoods, businesses and agricultural advances reflect the progress we support every day. Even in our most rural areas, growth is happening, and Flint Energies is proud to help fuel it.

homes and businesses across 7,200 miles, we've always aimed to do more than provide

We made great strides in expanding our fiber network in partnership with Conexon Connect. This project is bringing high-speed internet to underserved communities, just as we brought electricity generations ago. That's the cooperative difference in action

We invested in the future through education programs like EMPOWER Youth Leadership program, Bright Ideas grants for teachers, the Dolly Parton Imagination Library and college scholarships. We brought people together to learn about electric vehicles (EVs) at our EV Day and helped bring electric vehicle charging stations to charging deserts in our rural area. We hope you cannot only see the difference we're making, but also feel the difference.

Through the Flint Energies Foundation and our Rural Murals initiative, we made quality-of-life improvements visible and lasting. Whether it's helping fund local school districts or transforming small-town streetscapes, we are making a difference—together. As a not-for-profit cooperative, our success is measured by the well-being of our Consumer-Members. Thank you for trusting us to serve you. Together, we are growing stronger, more connected and more resilient. Thank you for helping Flint Energies be the difference in middle Georgia.

SERVICE THAT MAKES A DIFFERENCE

At Flint Energies, service means more than keeping the lights on. It means putting people before profits and making choices that benefit our Members and communities. In 2024, Members awarded us an American Customer Satisfaction Index (ACSI) score of 86, a rating higher than most investor-owned utilities nationwide. This achievement reflects the trust built when service is guided by cooperative values.

Another way we serve differently is through capital credits. Unlike traditional utilities that send dividends to outside shareholders, we return margins to the very people we serve. In 2024, Members received refunds representing their ownership in the cooperative. These refunds are a tangible reminder of the cooperative difference. We don't just power homes and businesses, we power communities by keeping value local.

7,257 Miles of lines

97,621Meters served

79,473
Number of Members

Power that reaches farther

Flint Energies' service stretches wide, connecting people and communities across Georgia. In 2024, we maintained 7,237 miles of electric line, served 97,621 meters and supported 79,473 Members. To put that in perspective, our system of lines is like driving from Warner Robins to Los Angeles more than three times, with miles to spare. Think of it as an invisible highway of power, stretching farther than a cross-country road trip and lighting up more meters than the entire population of Warner Robins. And when it comes to the homes and businesses we serve, the impact is just as impressive. If every electrical meter represented one household in a seat, you could fill Freedom Field in Warner Robins about 16 times. That is the scale of our cooperative difference. We reach farther, serve more and keep communities powered together.

On the cover

The cover shows Johnathan Wiggins, a Flint Energies employee, explaining energy use to Felix Acevedo, a local student at Peach County's Trojan Fest. This moment reflects Co-op Principle No. 5: Education, Training and Information. Flint Energies employees are encouraged to volunteer in the community, and this photo captures the difference our people make when they share knowledge, connect with Members and support the next generation.

A DIFFERENCE YOU CAN FEEL

(Left) Flint Energies employees Lequisha Turner and Lashanda Battle volunteering at the Strawberry Festival. (Middle) Bikes donated to students in Talbotton through Flint Energies' Sudden Impact initiative. (Right) Members enjoying a free Little Light Coffee courtesy of Flint Energies.

Community support

Flint Energies is more than an energy provider; we are a cooperative that actively invests in the communities we serve. In 2024, we found countless ways to make a difference. We organized supply drives for schools in Marion County, provided meals for first responders, donated bikes to children in Talbot County and surprised Members with local treats like coffee from Little Light Coffee or peach ice cream from Dickey Farms. These examples offer just a glimpse of how we engage with our neighbors and show up where we are needed most. We encourage everyone who walks through Flint's doors to become active in our communities, a commitment that even extends to our youth. Through the EMPOWER Youth Leadership program, students from Crawford, Macon, Marion, Peach, Schley, Talbot and Taylor counties lead service projects that directly benefit their communities. Flint Energies employees also contributed approximately 2,250 hours volunteering at local organizations and events. All of these efforts reflect Co-op Principle No. 7: Concern for Community, proving that Flint Energies' cooperative difference is more than words; it is a presence you can feel in the lives of our Members and the communities we proudly serve.

Nonprofit support

The Flint Energies Foundation is a cornerstone of our commitment to community. Funded by voluntary donations from Members through Operation Round Up, since its inception in 2001, the foundation has awarded more than \$10 million to support local organizations and programs across 17 counties. These funds support education, safety and local nonprofits. Recipients include:

- » Taylor County High School-\$5,000 to launch its Viking Values program
- » South Georgia Technical College-\$5,000 for scholarships
- » Perry Fire and Emergency Services-\$10,000 for a forcible entry door prop
- » Boys & Girls Clubs of Central Georgia—\$5,000 to support daily operations and program materials

Through these grants, the Flint Energies Foundation helps communities thrive and provides meaningful support where it is needed most.

Helene

When Hurricane Helene impacted our region in September 2024, Flint Energies prioritized Member safety. Offices in Warner Robins, Reynolds and Upatoi closed. President and CEO Jeremy Nelms shared timely video updates to keep Members informed about power restoration and safety measures. In the aftermath, donations were rounded up and given to affected communities, demonstrating our commitment to stand with the community in times of need.

Charging forward In 2024, Flint Energies, along with other organizations, invested to bring electric vehicle

organizations, invested to bring electric vehicle (EV) charging stations to Warner Robins and Buena Vista, meeting the growing needs of Members. Not only is Flint investing in infrastructure, but we also strive to educate the public. In partnership with the National STEM Academy, our EV Day featured an electrical vehical showcase, Member demonstrations and hands-on STEAM activities for kids.

Investing in education

Education is the building block of thriving communities and Flint Energies is proud to make a difference by investing in the future. In 2024, we supported students, teachers and schools through a variety of initiatives that encourage growth and opportunity. From scholarships and leadership programs to resources for classrooms, our efforts focus on creating brighter futures and preparing tomorrow's leaders for the challenges and opportunities ahead.

Transforming spaces

Flint Energies' Rural Murals program continues to breathe new life into our communities. In 2024, grants of \$10,000 each were awarded to Marshallville, Roberta and Talbotton to fund murals celebrating local heritage and promoting tourism. For more information or for directions to visit these locations, visit flintenergies.com/rural-murals.
